Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

	Application No.	Applicant(s)				
Office Action Comment	10/594,609	BRIAND ET AL.				
Office Action Summary	Examiner	Art Unit				
	SYED IQBAL	1793				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

Claims 6-22 were previously rejected and are currently pending.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6-10 are rejected under 35 U.S.C. 103(a) as obvious over lqbal et al. "Studies on aqueous extracts of three green algae as an elicitor of plant defense mechanism" Pak. J. Bot, as discussed previously.

Claims 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over lqbal et al. "Studies on aqueous extracts of three green algae as an elicitor of plant defense mechanism" Pak. J. Bot.

Applicant's arguments filed 05/07/2010 have been fully considered but they are not persuasive. The arguments presented by applicant were previously addressed in the advisory action and are incorporated herein. Applicant argues that the Iqbal reference does not indicate that the presence of iduronic acid in the polysaccharide extracts of Ulva lactulus and therefore the polysacaccharide extracts of Iqbal do not correspond to ulvans of claim 6. However, the iduronic acid is not a required monomer component in all ulvans and more specifically it is not required by claim 6. Applicant further argues that the reference does not teach or suggest administering an amount effective for eliciting nitrogen absorption and protein synthesis in plants and the reference only teaches studies showing increased disease resistance in plant. However, the reference teaches

Art Unit: 1793

high elictor activity and sugar contnet of the ulva lactulus. This would motivate one skilled in the art to use it in an amount which would result in this function. Furthermore since the reference teaches elicitor activity leading to disease resistance, the amount administered to exhibit such a showing must have been effective elicitor amount. Applicant argues that the product function of claim 9 is not taught. However, the product function cannot be given patentable weight when the composition itself is claimed.

Furthermore, the examiner notes that the reference does not specifically teach the amount of materials required in claim 10-12. Such a property is a result effective variable which can be determined without undue experimentation.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SYED IQBAL whose telephone number is (571)270-5857. The examiner can normally be reached on Monday to Thursday 7:30am EST to 6:00pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley S. Silverman can be reached on 5712721358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
